# Network and Information Security Directive 2 (NIS2) Compliance Training

This course introduces the EU NIS2 Directive, focusing on organisational cybersecurity and resilience obligations for essential and important entities. Participants will gain an understanding of governance, board accountability, risk management, incident handling, and reporting requirements. Real-world case studies and interactive exercises will equip participants with the tools to design and implement compliance strategies tailored to their sector and organisational needs.

## SPEAKER BIO

**Julian Meroi, CISSP**

**EU Compliance Consultant**

Experienced Information Security Engineer skilled in incident response, vulnerability assessment, and European compliance. Proven ability to optimize security processes and implement secure systems and cloud environments.

## Why Critical?

Non-compliance now carries significant risks:

**Staggered Fines:** Penalties of up to €10 million or 2% of total global annual turnover.

**Supply Chain Exclusion:** EU-based entities are now legally required to audit their third-party providers (including those in Malaysia).

## WHAT YOU WILL LEARN

- **Regulatory Architecture:** Detailed breakdown of the NIS2 framework.
- **Governance & Accountability:** Implementing the new management oversight requirements.
- **The "All-Hazards" Approach:** Mastering mandatory risk management measures.
- **Incident Response:** Navigating the strict 24-hour early warning and 72-hour incident reporting windows.
- **Supply Chain Security:** How to meet the high cybersecurity standards required by EU partners.

## DETAILED SYLLABUS

MyCoID: 202001023591 Course No.: 10001605157
